

# ELECTRON E-LAB POWDER COATING EQUIPMENT

## E-LAB DC

Desktop Type-with Powder Cup

### Content:

- E-COAT Master type electrostatic powder coating equipment,
- E-GUN LAB , with rear paint hopper, laboratory type powder coating gun,
- E-COAT series desktop assembly frame,

### Optional Accessories:

- E-GUN Fast-Corona, Ion Collector Module

E-LAB DC Desktop Type Lab Device with Master Controller & Cup is designed for applications where constant use is desired in laboratory environments, small sample sizes are made and the paint is put into the powder cup. E-LAB DC, which contains all the electrical and pneumatic features of E-COAT Master model powder coating application device, is presented as a useful solution for small sample tests made with different colors in stationary use situations such as laboratory environment thanks to dismountable powder paint cup and easily cleanable internal structure.
